

# MANY PNEUMONIA CASES FOUND IN LYNCHBURG

Thirteen Deaths Reported to Health Department in Twenty-Four Hours.

Eighty Deaths in Pulaski Postpone Conference Following Continued Spread of Influenza—Other News Notes From Various Points in State of Virginia.

LYNCHBURG, VA., October 17.—With influenza in the influenza epidemic, the pneumonia aspect of the epidemic continues to be grave, and hundreds are ill in all parts of the city and suburbs. The number of deaths in the last twenty-four hours totaled thirteen, nine of whom were negroes, this report showing a new aspect, for at the incidence of the epidemic the negroes were not seriously affected by it.

There is no doubt that the situation is better, despite the pneumonia aspect, for pneumonia among the negroes, druggists and undertakers makes this very perceptible.

The influenza market has been given until tomorrow to dispose of offerings coming from the farming districts, where the farmers had no notice of the impending shutdown of the market. After tomorrow, however, the sales close down tight.

The deaths reported in the last twenty-four hours include the following: William C. Cash, Mrs. George Padgett, Mrs. William R. Carter, Miss Gladys Powell, Anna Payne, colored; John Gibson, colored; Daisy Ivory, colored; Alexander Williams, colored; Lucy Abrams, colored; John Smith, colored; Thelma Smith, colored; Walter Stevens, colored; Willie C. Harris, colored.

**Epidemic in Decreasing.**  
PULASKI, VA., October 17.—A material decrease in the death rate, the dropping of the emergency hospital as a result of convalescent patients and a few calls for medical relief indicate that influenza has about run its course in Pulaski, having a death toll of less than eighty. The more recent deaths reported are: Miss Mattie Gott, aged thirty; Harry McCormick, aged eleven; Fred Hall, aged thirty; Miss Mrs. Nellie Largent, aged twenty-four; George D. Wood, aged twenty.

Physicians who were detailed here to aid in the fight against the epidemic, with two exceptions, gave close where in response to calls.

**Bring Body to Amherst.**  
AMHERST, VA., October 17.—The body of Doris Harden Carpenter, 18, who died in the emergency hospital, was brought to Amherst yesterday and taken to the home of her mother, near Sandridge. Her death was caused by influenza. In addition to her mother, young Carpenter is survived by his wife, who was Miss Emma Eliza Smith, a brother, Dean Carpenter, 18, and a sister, Miss Eunice Carpenter.

**Postpone Conference.**  
PULASKI, VA., October 17.—The Holston Conference of the Methodist Church has had a second postponement of the time of meeting because of the influenza epidemic. It was to have been held in Johnson City, Tenn., October 9, but there was a change in place to Knoxville, and time to the 16th. There being no general improvement in the situation throughout the territory embraced in the conference, the meeting has again been changed to October 26.

**Elected City Manager.**  
FREDERICKSBURG, VA., October 17.—The City Council has elected LeRoy J. Houston, Jr., as City Manager for Frederickburg to fill the vacancy caused by the resignation of R. Stuart Rogers, resigned. He was a commission in the Engineering Corps of the United States Army. The salary was fixed at \$3,500 per year.

**Bristol Rates \$270,000.**  
BRISTOL, VA., October 17.—Bristol's subscription in the Liberty Loan drive now stands \$270,000. Committees of business men are active in the business district, and it is believed that the city will reach her quota, as in previous campaigns, the quota assigned the two Bristol is \$520,000.

**Husband Dies in France.**  
LYNCHBURG, VA., October 17.—Mrs. W. J. Mitchell, of this city, has been advised of the death of her husband, Private Mitchell, with the army in France, of labor pneumonia on September 20th. A former resident of Lynchburg, he was residing in Bedford County when he was drafted.

**Veterinarian Commissioned.**  
BRISTOL, VA., October 17.—Dr. H. H. Adair, prominent veterinarian, has received a commission of first lieutenant in the army, and has been ordered to report to Camp Greenleaf, Ga. Dr. Adair has made Bristol his home for the past six years, and is the founder of the Adair Hospital for animals here.

**Doctor Calls for Help.**  
HEATHSVILLE, VA., October 17.—Dr. L. E. Cockrell, of this county, has appealed to the State Board of Health for help in fighting the influenza epidemic. He says he has over 200 cases, and is the only physician in Fairfield township. The only other physician, Dr. Selby, is ill.

**KILLED IN BARRAGE FIRE**  
Memphis Flyer Struck by Shell While Diving Through Rain of Explosives.

(By Associated Press.)  
MEMPHIS, TENN., October 17.—Lieutenant Henry G. Armstrong, son of Harry L. Armstrong, was struck by a shell and killed while diving through a barrage in France, October 7, according to a cablegram received by Mr. Armstrong from another son, Lieutenant Estes Armstrong.

**Drowned in Foreign Service.**  
WASHINGTON, October 17.—Roderick P. Taylor, machinist's mate, of Orlando, Fla., was drowned in foreign service, October 10.

# CONDITIONS IN PETERSBURG REPORTED MORE FAVORABLE

(Special to The Times-Dispatch.)  
PETERSBURG, VA., October 17.—Influenza conditions are more favorable to-day, the reports for the twenty-four hours up to last night showing a decrease in the number of new cases, the new cases being 228, as against 235 for the previous day, which was a decrease from previous reports. The pneumonia cases, however, showed an increase, with twenty-four new cases, as against nineteen the previous day.

This morning Dr. Martin, the health officer, distributed about twenty gallons of whisky to physicians at a price of \$1.00 per gallon, for use in the treatment of patients.

The Board of Health is considering the matter of closing all business houses except drug stores and restaurants at 5 o'clock on Saturday afternoon to avoid the week-end rush of shoppers. Reports from the emergency hospital show the total number of patients received to date as 165. Of this number forty-eight have been discharged, fifteen have died and 103 remain in the hospital.

**Fugitive Gives Up.**  
Dr. B. R. Goldberg, the fugitive physician, has been surrendered by the authorities, and is now on his way back to be tried for forgery. He was arrested in Dayton after a flight of over a year, and is charged with forging a check for \$10,000. He was arrested after his arrest there. There are complaints against the doctor here, but it is not known that he will be prosecuted for other forgery.

**Petersburg's Quota.**  
Petersburg is yet behind in its subscription to the fourth Liberty Loan, but a great effort is being made to make its full quota by the close of the campaign, as it is confidently believed that these efforts will be successful. The ladies are doing splendid work.

**To Hold Inquest.**  
Coroner Crockett and a jury to-day viewed the body of Engineer R. N. Newton, who was killed in an accident before last, caused by a wild engine, and an inquest will be held to determine the responsibility for his death. The Norfolk and Western Railroad authorities are also investigating the matter. The runaway engine, it is said, caused damage to a number of box cars.

**Notes of Interest.**  
Lieutenant of Marines Robert Watson Claiborne, of this city, son of Mrs. John Herbert Claiborne, has been promoted to a captaincy and ordered to report himself in readiness for overseas service.

Mr. and Mrs. R. H. Rowe, of Tarrytown, N. C., are here attending at the residence of their daughter, Miss Archer Hoag, whose husband died Monday of pneumonia, and was buried yesterday.

The Woman's Army Club has temporarily put aside all work save that of caring for the sick and giving relief to the members to sell Liberty bonds.

A telegram received yesterday announced the death of a prominent business man, George B. Whitmore, a traveling salesman of this city. His mother, Mrs. George A. Whitmore, and sister, Mrs. Baird, immediately left to be at his bedside.

William Sanders, an optician, died yesterday of pneumonia at his home in Hinton Street. He is survived by his mother, Mrs. Alice Sanders.

Uniforms for 150 high school students, who are to receive military training this session, have been purchased in Philadelphia.

Two little children of Mr. and Mrs. W. L. Raynor, of Edor Street, died yesterday, and were buried together to-day. The children, aged three and six months, respectively.

In the kitchen of the emergency hospital a dozen or more of our best housewives and cooks, assisted by a host of young women, prepare and serve the food for the patients.

# TWENTY THOUSAND MEN TO REPORT NEXT MONTH

Announcement Taken to Indicate That Influenza Epidemic is Declining at Camp Lee.

STILL 3,000 MEN ILL WITH IT

Pictures of Convalescents Sent Home to Relatives—Enlargement of Base Hospital Started—Little Interest in Politics.

(Special to The Times-Dispatch.)  
CAMP LEE, VA., October 17.—Information received at the camp headquarters to-day indicate that a movement of 28,000 men from the camp to the front will begin on November 7. It is thought that these will be among the first troops drawn from this class to be forwarded on a large scale to any of the front-line camps of the country. The men will be from nineteen to thirty-six years of age.

The fact that the men are to begin to arrive within less than three weeks would indicate that the influenza epidemic is considered past all danger at the camp. Besides the movement of 28,000 men on November 7, it is thought that an additional movement of 15,000 will be made during the month.

The camp is to continue to train replacement troops. No division will be established here, according to Brigadier General Charles A. Haskin, Camp Commander. The new officers' training school buildings will accommodate 5,000. The barracks at the veterinary school will accommodate in excess of 2,000. The detention camp is to accommodate 5,000. The old artillery stables and the tents will care for 10,000. This will allow room for nearly 70,000 men.

**Forty-Four New Cases of Influenza.**  
To-day's report at the camp surgeon's office shows that influenza is gradually disappearing from the camp, although there are still 3,022 men receiving medical treatment. Three hundred and seventy-seven men returned to duty to-day, while forty-four men contracted the disease in the same period. There were seventeen deaths, which brought the total to 500.

There are many interesting details connected with the handling of the epidemic. Noise were calculated to produce more pleasure and relieve worry back home than the policy established at the base hospital of taking pictures of men convalescing with the disease and sending them to the parents of the men. This relieved any worry that they might have concerning the dangerous illness of their soldiers. In connection with the necessary records the pictures of the 600 men who died have been taken for the War Department.

Work was begun to-day on the improvement of the base hospital to care for 800 additional patients, as well as buildings for nurses. In addition there will be four buildings for men on duty at the hospital.

At the central officers' training school the new quarters are under way. These will care for 5,000 men. Already 2,000 are quartered in the new quarters. It is contemplated that the entire school, including the headquarters, will be of a special type and will be constructed with the idea of promoting the greatest postal dining-room for each company.

On Tuesday night Camp Lee led the rest of the camps of the United States in the sale of Liberty bonds. There was a lead of over \$100,000 above Camp Devens, Mass., by the soldiers of this camp. With the subscriptions already approaching the \$1,000,000 mark, it is believed that this minimum goal will be passed by Saturday night.

**NEARLY 14,000 PENNSYLVANIANS QUARTERED AT CAMP**

There are now in this camp 13,512 Pennsylvanians. Commissioners have sent to the state to supervise the voting of the soldiers in the various voting booths were in the various parts of the camp. Last night a number of non-commissioned officers who were in the camp were reported to have been taken to the camp by train.

The soldiers are taking little interest in the sale of Liberty bonds. Various States in the Union allow absent soldiers to vote, but only a small percentage of the soldiers are taking advantage of this privilege. This is particularly true where the soldier must vote by registered mail.

Captain George C. Capelle, reported at the training school to-day from France, where he has seen more than a year of active service with an engineering unit in the American expeditionary forces. Captain Capelle will conduct a special course in engineering for the embryo infantry officers. There are a number of the instructors in the school who have seen six months or more of active service in France.

Captain William Van V. Warren, who has been an instructor at the school since the early days of the organization, has been commissioned a captain in the chemical warfare service, and has been ordered to report to Camp Sherman, Ohio.

The detention camp, which is to be constructed within a mile of Prince George Court House, has already been laid out by the engineers of the construction quartermaster, and work on the new buildings will begin immediately upon the completion of the central officers' training school. This camp will accommodate 5,000 soldiers. The barracks will accommodate eight soldiers. There will be a wood stove, electric light and other necessities in each building. In these new draft-made men will be quartered until it is certain that there is no contagious disease prevalent among them. In event of contagion appearing, only a limited number exposed there will be little danger of its spread.

**Norfolk Man Wounded.**

(By Associated Press.)  
OTTAWA, Oct. 17.—E. B. Jackson, of Norfolk, Va., serving with Canadian forces, was wounded, according to to-day's casualty list.

Work was begun to-day on the improvement of the base hospital to care for 800 additional patients, as well as buildings for nurses. In addition there will be four buildings for men on duty at the hospital.

At the central officers' training school the new quarters are under way. These will care for 5,000 men. Already 2,000 are quartered in the new quarters. # BULGARIANS PROVE APT PUPILS OF GERMANY

(By Associated Press.)  
ATHENS, October 17.—The devastation and ravage committed by the Bulgarians in Eastern Macedonia have caused the directors of the newspapers of Athens to protest to the world and to invite representatives of the press to visit the ruined area and see conditions for themselves. The declaration of the newspaper directors says:

"Full of horror and indignation at the devastation and ravage which the Greek troops and representatives of the Greek press are finding at every step throughout all the reoccupied sections of Eastern Macedonia, where the Bulgarians committed the most atrocious crimes, we protest to the civilized world and ask the press of the world to send representatives to Serres, Drama and Kavala to observe and see for themselves the brutality and the crimes which have deprived us of a large number of the Greek population which has succumbed as martyrs of suffering."

"If this war has liberty and virtue for its supreme ideals, the punishment alone of the guilty does not suffice for the deliverance of all human beings who in Thrace and Asia Minor have suffered under this shameful yoke, and who risked being abandoned to the claws of such savage animals is absolutely essential."
